SMS Promotions

OVERVIEW

Matching customer demand to stock, especially when perishable, can be facilitated by SMS. Use SMS to send out customer promotions to generate additional demand. Our services provide you with the tools to connect your workflow to SMS. We can show you how.

SMS

You can use SMS to instantly let your customers know about promotions and offers you are running. Messages can be sent in bulk and scheduled to be sent at a date and time convenient to your campaign or offer. You can also allow your customers to respond by SMS, giving you an engaging communications tool for your promotions.

UPGRADE WITH SMS+

SMS+ enhances regular SMS. Adding longer message length and allowing rich text content, you also gain the ability to brand your messages with your corporate logo. You can encrypt your messages and set them to expire after a certain time. Messages sent via SMS+ can be read only by the intended user, providing the ideal solution for your more sensitive business communications.
