SMS Recruitment / Hiring

OVERVIEW

SMS helps communicating with candidates when you are recruiting. Whether you need to inform candidates of interviews or if you need to contact your staff about shift opportunities and notifications, SMS is an effective communication tool for you.

SMS

Use SMS to communicate with your candidates about interview dates you can use SMS. You can also receive their responses and act on them. When searching for internal resources for a project or immediate short notice resourcing need, SMS allows you to seek out candidates or volunteers to fill the places you have on offer.

UPGRADE WITH SMS+

SMS+ enhances regular SMS. Adding longer message length and allowing rich text content, you also gain the ability to brand your messages with your corporate logo. You can encrypt your messages and set them to expire after a certain time. Messages sent via SMS+ can be read only by the intended user, providing the ideal solution for your more sensitive business communications.
